

Jasper Innovative Solutions
We're More Than Your Average Supplier...
We Deliver Business Solutions!

Jasper Innovative Solutions takes considerable pride in the quality of the products it supplies. JASPER is one of the leading suppliers of automotive fleet parts, specializing in OE and aftermarket parts to keep your aging fleet running strong.

What are the advantages of doing business with JIS?

- Personalized service from a knowledgeable and dedicated service and support team.
- Continued sourcing and stocking of parts no longer available through OEM suppliers.
- Online inventory management system available from any computer with Internet.
- Fleet, P Chassis and GSE parts in stock.
- Custom-packaged parts kits, cooler kits and radiators for applications 1-ton or less to complete the installation.
- Quick delivery, due to a centralized distribution warehouse and our own delivery company.

Jasper Innovative Solutions understands that a company's surest path to success still depends on the age-old art of listening. We listen to our customers, and in doing so, learn from them. To accomplish this goal, we assign you with a sales rep who will visit and work with you to better your experience.

Please contact us by phone or Internet. We look forward to helping you meet your needs as a Vehicle Maintenance Professional.

The JASPER Process Assures Precision, Expertise and Attention to Detail in Every Product We Deliver.

Every JASPER remanufactured Product is subjected to strict, high-quality processes, including the most recent updates. With JASPER you will benefit from more reliable fleet performance and long-term cost savings!

- Precise machining and surface finishing produce smooth, reliable operation and proper sealing.
- All new and remanufactured parts are carefully inspected for correct tolerances to assure reliable service.
- Assembly by skilled Owner/Associates who maintain ASE and JASPER certifications and care about the quality of the products they build for you.
- Consistent, controlled quality through standard work processes.
- Extensive research gives us the insight to correct problems in OEM design, with updates to improve performance and increase component life.
- Live-run testing of gas engines, dynamometer testing of running complete diesels and domestic automatic transmissions ensures performance and reliability.

JASPER products are proudly remanufactured in the U.S.A. by skilled and dedicated Owner/Associates who are ASE and JASPER certified. We strive for customer satisfaction in every product we deliver.

The value of JASPER's nationwide, transferable warranty can increase with an optional Premium Service Plan that includes Premium Labor Coverage, towing, rental and fluid reimbursement for applications 1- ton or less. Visit www.jasperengines.com for details.
